c2f(100)

hello	<i>A simple function doing little</i>
-------	---------------------------------------

Description

This function shows a standard text on the console. In a time-honoured tradition, it defaults to displaying *hello, world*.

Examples

```
hello()  
hello("and goodbye")
```

hello2	<i>A simple function doing little</i>
--------	---------------------------------------

Description

A simple function doing little

Usage

```
hello2(txt = "world")
```

Arguments

txt	A text argument
-----	-----------------

Value

Nothing, side effect of cat()

Examples

```
hello("world")
```
